## Oral Health Action Team

### 2018-2021 Goals, Objectives, and Data Indicators

#### 2018-2021 Goals & Objectives

**Goal 1: To improve oral health outcomes for the prenatal and early childhood populations in Eau Claire County through education and outreach.**

**Obj. 1:** By 2021, Implement at least three strategies to increase community awareness and knowledge of the importance of early dental visits for children.

**Obj. 2:** By 2021, implement at least two strategies to increase awareness, knowledge and perception about the importance of accessing dental services throughout pregnancy.

**Obj. 3:** By 2021, coordinate with local organizations to develop at least two policies and/or practices to provide children and women better access to oral health services.

**Goal 2: To increase community awareness and knowledge of the connection of oral health behaviors on overall health through increased education and outreach.**

**Obj. 1:** By 2021, implement at least two community awareness campaigns to increase the awareness of oral health's impact on overall health throughout the lifespan.

**Obj. 2:** By 2021, collaborate with community partners to implement at least one system and/or environmental change to encourage positive oral health behaviors.

#### 2018-2021 Data Indicators

Indicator	Eau Claire County	Wisconsin
Percent of 3rd graders with untreated dental decay	<b>17% (Western Region)</b>	<b>18%</b>
Percent of residents (age 2+) that did not have a dental visit in the past year	<b>28%</b>	<b>26%</b>
